Art Unit: 3662

1. Claims 37-40 are allowable over the prior art of record.
2. Claims 11-13 and 34-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of independent claims 11, 12, and 13, the preamble uses the phrase "using ground penetrating radar," but ground penetrating radar is never clearly and definitely recited in the body of each of these claims. If the recitation of the "ground penetrating radar" in the preambles of these claims is meant as a recitation to positively claim "ground penetrating radar" as part of the claimed apparatus, then the transitional word "comprising" in each of claims 11-13 must be amended to read "further comprising."

Dependent claims 34-36 are unclear in that they depend from unclear claim 11.
